

## Guidelines to prepare your poster:

- The poster should be A1 size and in pdf format;
- A good research poster will 'speak for itself' – make it accessible even if you are not there to present it yourself;
- A good poster will include the following elements: *Title, name and affiliation; Context and research questions; A brief description of the methodology; Expected or preliminary results and conclusions;*
- The poster should be clear, brief and self-explanatory. The contents should be understandable for graduates from other disciplines;
- Even that the poster session will be in an online format, please make sure that you do not use excessive text and too small font size in your poster.
