

How to present in BigBlueButton?

Below are brief instructions on how to use BigBlueButton for presentation. You can find more information by clicking [here](#) to see the BigBlueButton overview video.

In the meeting room

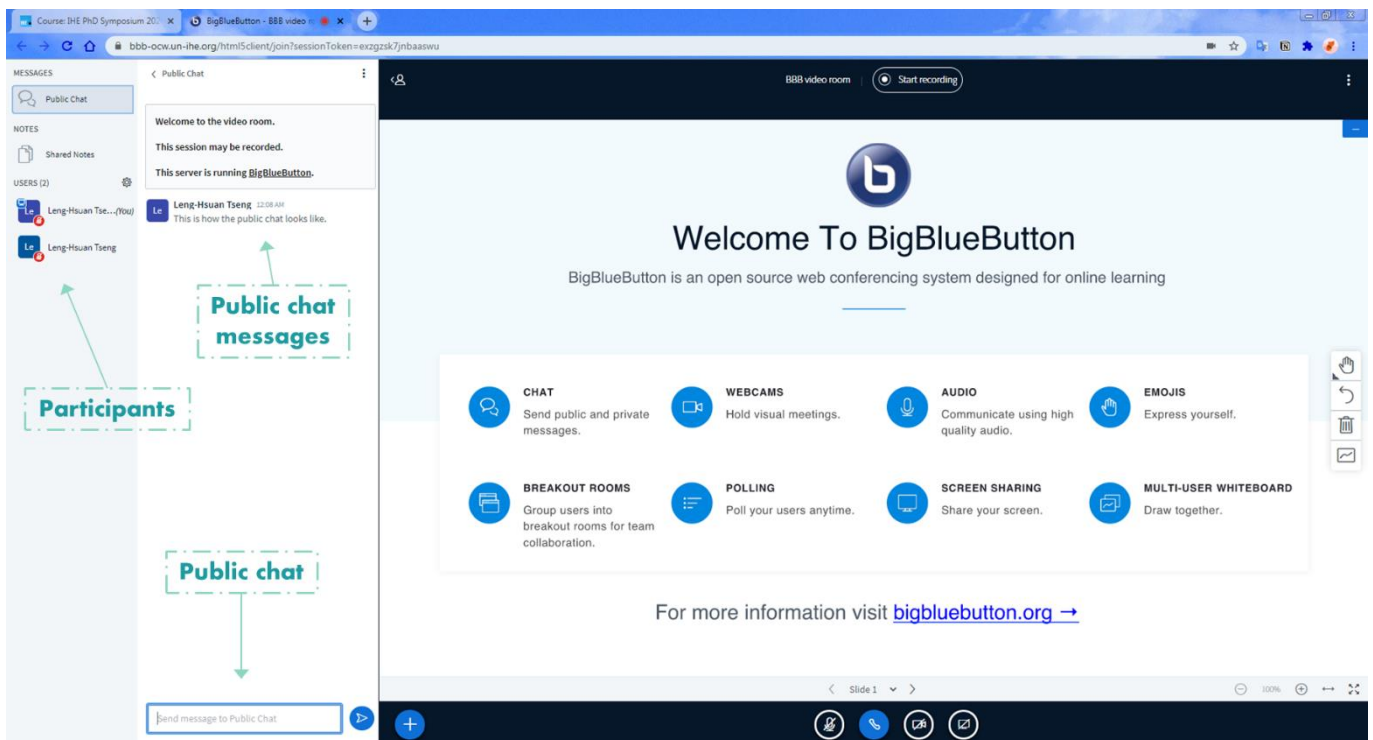

After you enter the meeting room, you will find areas with information about:

1. List of participants

You can see the list of participants who are in the room at the left panel.

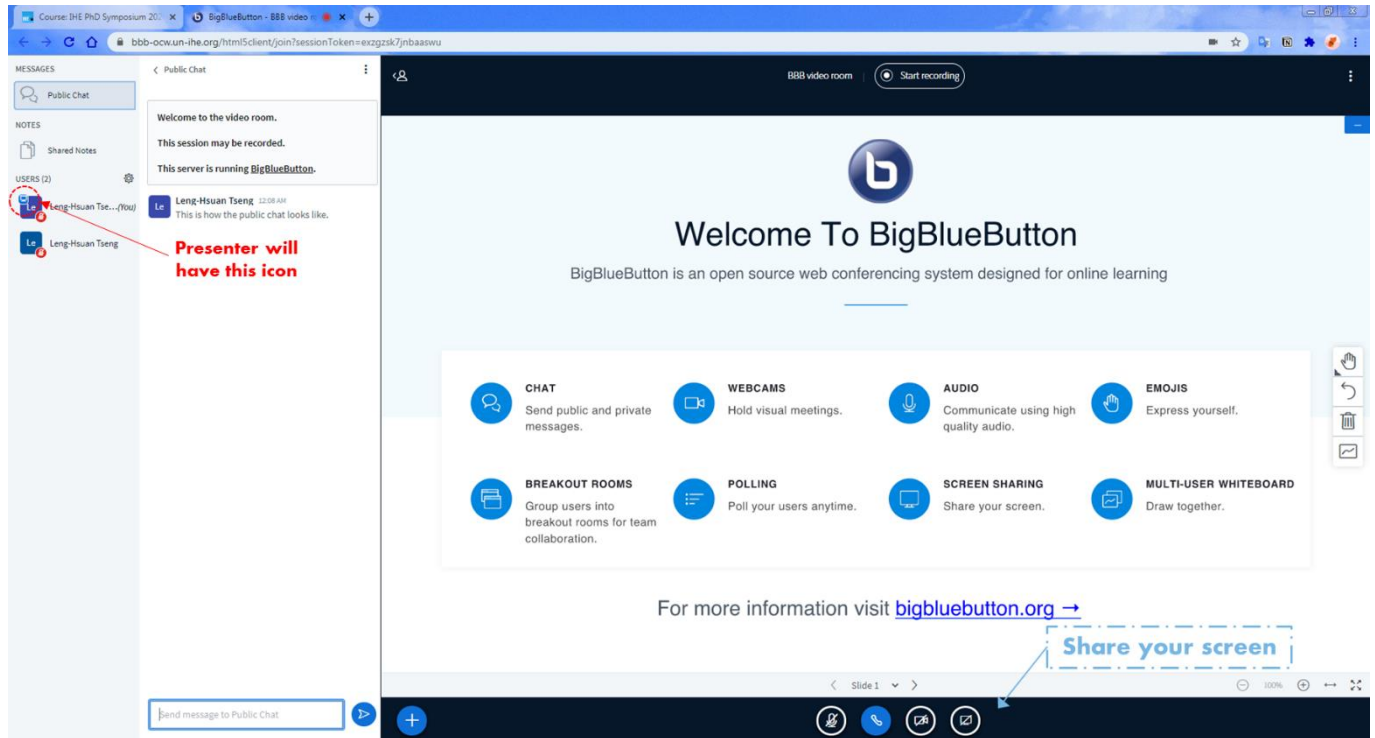

2. Text questions from participants

There is a public chat area where participants can send their messages. You can see text questions from participants in the public chat.

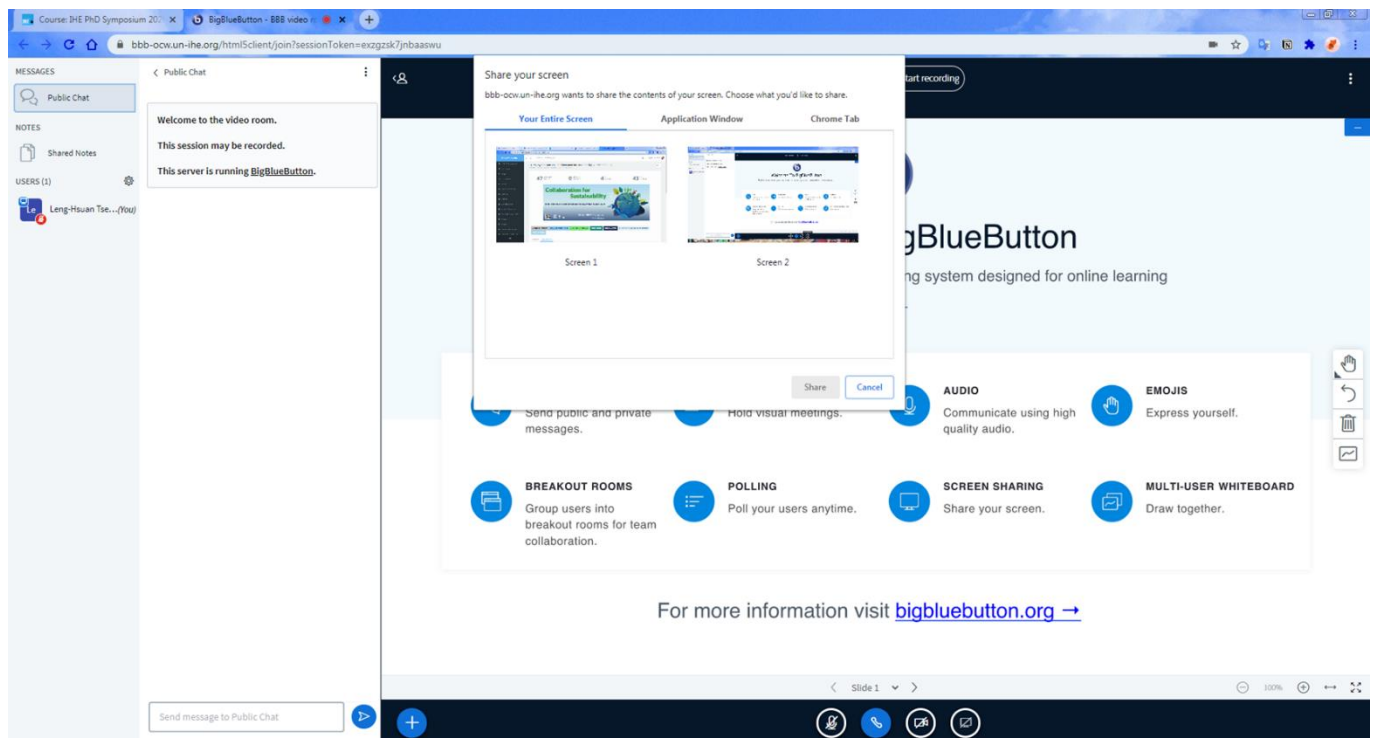

Share your screen

1. Only the presenter will have a small icon on top of his/her logo. If you are the presenter, you can share your screen by click on the “share your screen” button.

2. Select the screen you want to share if you have more than one screen.

3. We recommend you to share your screen instead of application window to have better presentation.
